Please allow KLOVE to continue to be heard amongst the FM translator service. KLOVE has brought so much to my community that I've been able to share with friends and family on a day to day basis. This station has brought many people together and has even saved lives to those who are depressed and suicidal. So many times an FM station that plays Rock/Heavy Metal seems to be accused of contributing to teenage suicide, lets continue to give those kids another station to tune into, even it they stumble upon it by accident. (Which I have heard actual testimony stated) All the employees are dedicated and will always find time for the community ~ without them...where can all of us turn!!!! So with this offering of my concerns, prayers & interest, may you consider a continuation of FM broadcasting for KLOVE ~ you never know whose life you may be making a difference in, or whose you may be saving!!
